

Homestay and High School in Spain

HOMESTAY EXPERIENCE

Within this program, students are completely immersed in the Spanish language and do not have opportunities to speak their own mother tongue: this allows a quick improvement of the language skills. Students get the unique opportunity to discover a new way of life and a new culture first hand, not like a tourist! The homestay program is the most affordable language travel!

This program is ideally suited to mature and independent students, eager to meet new people from abroad and with enough language proficiency to communicate with host family members. The pure homestay program is a true cultural exchange.

During their stay, they go to classes from Monday to Friday, at a local school like any other student, get involved with family activities and make long lasting friendships! Nacel's short-term program offers the opportunity to experience Spanish lifestyle and culture from the inside. It is the best way to improve your Spanish language skills and integrate

the everyday life of another country.

They will be placed in host families all across Spain. Those host families will naturally support the student with his/her Spanish studies but are also eager to welcome students who may share their native language with the family members in return.
